### **4W8X Timor Leste**

4W8X will be activated from November 4<sup>th</sup> to December 5<sup>th</sup> by a team of 20+ skillful and highly experienced DXers and Contesters from Germany, Austria, Poland and Hungary under leadership of Lagunaria DX Group. They will also bring equipment for EME on 144 MHz, 432 MHz and 1296 MHz. Please check [www.timor-leste-dx.de](http://www.timor-leste-dx.de) for updates.

### **African ATNO**

Another African ATNO might also become QRV during the first half of November. 144 MHz EME operation with a single xpol yagi is not yet confirmed, so I was asked not to communicate more details until everything is 100% confirmed. Hence, please be prepared.
